

Nordic News July 2005

What's new?

The Maritime Geothermal testing laboratory has been approved and certified by the Canadian Standards Association to perform 'shared testing'.

Glenn Kaye, President of Maritime Geothermal Ltd., at the IGSHPA expo.

In April the new Nordic trade show booth was on display at the IGSHPA annual technical conference. The booth and associated marketing materials generated praise.

In May Maritime Geothermal Ltd. participated in a trade mission to Boston USA organized by a federal government agency. The mission consisted of presentations by the Canadian High Consulate in Boston as well as meetings with potential dealers.

In early July Laura McPhee was hired as administrative assistant. Laura will be the friendly voice you hear when you call our main phone number.

Glenn Kaye has agreed to serve on the Technical Advisory Committee of the Canadian Geoexchange Coalition an organization of Canadian Power Utilities.

Glenn also agreed to serve on the Board of Directors of Enterprise Fundy, a local community economic development organization.

Upcoming Events

Maritime Geothermal Ltd. will be participating in the Trade Team Atlantic mission to Chicago October 2-6, 2005. If you are involved in geothermal heat pump installations in Illinois we'd love to meet with you. For info please call Anita Bezeau.

Look for the Nordic tradeshow booth at the AHR Expo in January 2006 at Chicago's McCormick Center.

Product Enhancements

All models of Nordic heat pumps are being tested to ISO 13526 to obtain new performance ratings. Several improvements have been made that should result in improved performance ratings.
